

High-temperature bearing grease cartridges

PRODUCT GUIDE · CHEMICAL-06

Bearing grease cartridges selected for the required load, speed and operating temperature.

Application

Bearing and mechanical lubrication where the selected grease meets the equipment requirement.

High-temperature bearing grease cartridges — reference specifications

Reference product	HTGR00045
Pack	450g cartridge
NLGI grade	2
Thickener	Lithium complex
Operating range	−10°C to +170°C
Intermittent maximum	200°C
Use	Wheel bearings including disc-brake applications; industrial bearings

These properties describe the identified reference product. Use the documented service-temperature range for the exact grease. Dropping point is not a continuous operating-temperature rating.

Details to include in your enquiry

Bearing duty speed and operating temperature · Required grade and current grease · Grease-gun model and cartridge quantity
