Phillips-head screws

PRODUCT GUIDE · EQUIPMENT-32

Cross-recess screws provide a Phillips drive for fastening timber, sheet metal or compatible materials using the specified screw type.

Application

Maintenance, fitting installation and general assembly with the correct thread and point for the substrate.

Pictured Phillips screw reference

Drive	No. 2 Phillips (PH2)
Size	8-9 × 45 mm
Head and point	Bugle head; needle point
Thread and finish	Coarse thread; zinc yellow
Documented application	Plasterboard to timber frames

These facts apply to the pictured NPBUC0845ZY screw. Other Phillips screws have different heads, threads and substrate requirements.

Details to include in your enquiry

Thread gauge length and point type · Head style and Phillips drive size · Substrate coating and pack quantity
