

5/16-inch hex-drive metal screws

PRODUCT GUIDE · EQUIPMENT-33

Hex-head self-drilling screws use a 5/16-inch driver to fasten compatible metal sections within the specified drilling range.

Application

Sheet-metal, bracket and framing connections where the selected screw point suits the base metal.

Pictured 5/16-inch hex-drive screw

Driver size	5/16 inch hex — across flats
Screw size	12-24 × 32 mm
Point	Series 500 self-drilling
Thread	Fine, fully threaded
Finish	Class 4 galvanised
Reference	SDHX5F12032C4

The drive size is not the shank diameter. Confirm steel thickness against the manufacturer's drilling-capacity table for the exact length and point selected.

Details to include in your enquiry

Screw gauge length and drilling capacity · Coating and sealing washer requirement · Pack quantity and substrate thickness
