

Claw couplings

PRODUCT GUIDE · FITTINGS-27

Claw couplings provide a quick connection between matching hose ends or equipment connections using interlocking claws.

Application

Compatible air and water hose systems, selected for the required application.

Claw coupling selection

End forms	Hose tail, male thread or female thread
Mating interface	Claw profile and coupling series must match
Retention	Matching safety pin / locking arrangement
Media	Series-specific air or water use; not a steam coupling

Reference configuration only. Dimensions and ratings apply to this documented series; the offered item is confirmed with your quote.

Details to include in your enquiry

Claw profile and mating dimensions · Hose bore or thread connection · Working duty and required retention arrangement

Technical references

[Claw coupling technical reference — open reference](#) · Manufacturer / supplier reference · Confirm current revision with quotation

Reference values apply only to the identified configuration. The offered model, dimensions, approvals and lead time are confirmed with your quote. Availability is subject to confirmation.
