

Complete spill kits

PRODUCT GUIDE · MISC-11

Complete spill kits combine absorbents, disposal supplies and selected protective equipment in a labelled container.

Application

Prepared spill response for the specific oils, liquids or chemicals identified by the site.

240 L oil-and-fuel spill kit

Container volume	240 L wheelie bin
Absorbency	Up to 235 L for the referenced kit; not the bin volume
External dimensions	600 × 700 × 1050 mm
Absorbent type	Oil and fuel; not a universal chemical spill kit
Configuration	Complete kit; contents itemised in linked specification

This reference is a complete oil-and-fuel kit. Empty bins, general-purpose kits and chemical kits are separate selections; absorbency depends on the spill and test conditions.

Details to include in your enquiry

Spill liquid and required absorbent type · Absorbency rating and itemised kit contents · Container dimensions and replacement consumables

Technical references

[Complete kit contents and specification — open reference](#) · Manufacturer / supplier reference · Confirm current revision with quotation

Selected source fields compared 2026-10-05. 240 L bin versus up-to-235 L absorbency and 600 x 700 x 1050 mm dimensions agree.

Reference values apply only to the identified configuration. The offered model, dimensions, approvals and lead time are confirmed with your quote. Availability is subject to confirmation.
