

Swing check valves

PRODUCT GUIDE · VALVES-05

Swing check valves use a hinged disc that opens with forward flow and closes against reverse flow.

Application

Pump discharge and compatible non-return duties.

Swing-check selection

Action	Hinged disc; flow-operated closure
Documented variants	Brass or stainless screwed; stainless flanged
Critical check	Installation orientation and available flow to open the disc

Reference configuration only. Dimensions and ratings apply to this documented series; the offered item is confirmed with your quote.

Details to include in your enquiry

Flow rate and installation orientation · Fluid, pressure and temperature · Connection standard and closing behaviour
